

## SPbWOSCE 2014

3-4 December 2014, Saint-Petersburg, Russia

Civil Engineering Institute of Saint-Petersburg State Polytechnical University arrange International scientific conference Week of Science in SPbSPU - Civil Engineering.

### Table of Contents

#### Chapter 1: Buildings and Structures

Gorshkov, A., Vatin, N., Nemova, D., Tarasova, D. The Brickwork Joints Effect on the Thermotechnical Uniformity of the Exterior Walls from Gas-Concrete Blocks (2015) Applied Mechanics and Materials, 725-726, pp. 3-8.

Vatin, N., Gorshkov, A., Nemova, D., Urustimov, A., Staritcyna A., Ryimkevich P. Calculation Method of Justification of Technical Actions for Prevention of Ice Dams Formation on Buildings with a Pitched Roof (2015) Applied Mechanics and Materials, 725-726, pp. 9-14.

Belov, V., Morozov V. Fire Resistance of Non-Crack Resistant Flexural Reinforced Concrete Elements (2015) Applied Mechanics and Materials, 725-726, pp. 15-20.

Polonnikov, V., Habibulin, A. Heat and Mass Transfer in Low-Temperature Insulation in Moisture Conditions (2015) Applied Mechanics and Materials, 725-726, pp. 20-24.

Nemova, D., Reich, E., Subbotina, S., F., Khayrutdinova. Comparison of Different Types of Transparent Structures for High-Rise Buildings with a Fully Glazed Facade (2015) Applied Mechanics and Materials, 725-726, pp. 26-33.

Vatin, N., Togo, I., Bepalov, V., Kuzmenkov, D., Panteleev, G., Smirnitkiy, D. Prodrôme in Experimental Investigation the Thermal Shielding Systems in Enclosure Structures (2015) Applied Mechanics and Materials, 725-726, pp. 34-40.

Petrichenko M., Vatin N., Nemova D. Improvement of the Double Skin Facades (2015) Applied Mechanics and Materials, 725-726, pp. 41-48.

Gorshkov, A., Ivanova, E., Reduced Thermal Resistance of a Two-Layer Wall Construction (2015) Applied Mechanics and Materials, 725-726, pp. 41-48.

Petrichenko, M., Tarasova, D., Nemova, D. Unsteady Temperature Condition of the Enclosure Structure (2015) Applied Mechanics and Materials, 725-726, pp. 57-62.

Suslova, A., Sivokhin, A., Petrichenko, M. Unsteady Airway as an Effective Method of the Ice Melting Prevention on the Building's Roof (2015) Applied Mechanics and Materials, 725-726, pp. 63-70.

Petrichenko, M., Nemova, D., Bogomolova, A., Kopylova, A. Humidity Conditions of Enclosing Structure with Silicate Brick Veneer and Variable Air Gap (2015) Applied Mechanics and Materials, 725-726, pp. 71-79.

Vatin, N., Nemova, D., Marinenko, D., Talan, E. Characteristic and Application of Facade System 'Polialpan' (2015) Applied Mechanics and Materials, 725-726, pp. 80-86.

Petrichenko, M., Ostrovaia, A., Statsenko, E. The Glass Ventilated Facades – Research of an Air Gap (2015) Applied Mechanics and Materials, 725-726, pp. 87-92.

Petrichenko, M., Vatin, N., Nemova, D., Olshevskiy, V. The Results of Experimental Determination of Air Output and Velocity of Flow in Double Skin Facades (2015) Applied Mechanics and Materials, 725-726, pp. 93-99.

Sychev, S., Bad'in, G., Kazakov, Y., Judina, A. Innovative Technologies in Development of Construction Industry Improving Technology of Constructing Pre-Fabricated Buildings in the Conditions of Northern Regions (2015) Applied Mechanics and Materials, 725-726, pp. 100-104.

Birjukov, A., Bolotin, S. Construction of Temporary Accommodation Camp and Selection of Optimal Type of Building (2015) Applied Mechanics and Materials, 725-726, pp. 105-110.

Zejak, D., Vatin, N., Murgul, V. Analysis of the Masonry Structure Calculation with Vertical Ring Beams According to European Standards (2015) Applied Mechanics and Materials, 725-726, pp. 111-117.

Volkov, V., Smirnov, V. Program- and Goal-Oriented Approach to Organization of Monitoring Deformations of Buildings and Structures (2015) Applied Mechanics and Materials, 725-726, pp. 118-123.

Fedorov, V., Levitskiy, V. Constitutive Relationships of Concrete and Reinforcing Steel under High Temperatures (2015) Applied Mechanics and Materials, 725-726, pp. 124-129.

Smirnov, I., Shesterova, E., Nemova, D., Petrichenko, M. Objective Estimation of the Use of Windproof and Weatherproof Membranes in Double Skin Facades (2015) Applied Mechanics and Materials, 725-726, pp. 130-137.

Kostić, R., Vatin, N., Murgul, V. Fire Safeguards of "Plastbau" Construction (2015) Applied Mechanics and Materials, 725-726, pp. 138-145.

Fidrikova, A., Grishina, O., Marichev, A., Korsun, A. The Research of the Effect of Basalt Wool on the Acoustic Isolation of the Floating Floor (2015) Applied Mechanics and Materials, 725-726, pp. 146-152.

Ptuhina, I., Spiridonova, T., Musorina, T. Performance Evaluation of High-Rise Complex Construction Depending on Building Site Placement (2015) Applied Mechanics and Materials, 725-726, pp. 153-159.

Dražić, J., Peško, I., Mučenski, V., Trivunić, M., Đorđević, D., Vatin, N. Using ANN in Process of Seismic Damage Prediction for Residential Buildings (2015) Applied Mechanics and Materials, 725-726, pp. 160-167.

Bonić, Z., Davidović, N., Prolović, V., Romić, N., Vatin, N. Experimental Testing of Retaining Walls of Precast Elements (2015) Applied Mechanics and Materials, 725-726, pp. 168-178.

## **Chapter 2: Foundations, Underground Structures**

Sakharov, I., Paramonov, V. Specific Features of Calculating Underground Structures Erected with Use of Freezing Method (2015) Applied Mechanics and Materials, 725-726, pp. 179-184.

Melentev, A., Korovkin, V. Calculation of Retaining Walls with Anchoring at Different Levels (2015) Applied Mechanics and Materials, 725-726, pp. 185-189.

Badanin, A., Melnikov, V., Filippova D. The Comparison of Pile Load Capacity Based on the Results of Analytical Calculations and Static Tests (2015) Applied Mechanics and Materials, 725-726, pp. 190-194.

Lalin, V., Zimin, S., Trusova, A., Nachkina, P. Accuracy Appraisal of Pile Simulation by Elastic Linkage (2015) Applied Mechanics and Materials, 725-726, pp. 195-201.

Bardyshev, O., Gordienko, V. Some Aspects of Maintaining Inclined Tunnel Escalators in St. Petersburg (2015) Applied Mechanics and Materials, 725-726, pp. 202-207.

Zafirovski, Z., Vatin, N. Stress-Deformation State in the Rock Massif (Illustrated with the Example of Macedonia) (2015) Applied Mechanics and Materials, 725-726, pp. 214-219.

Verstov, V., Judina, A. Improving Technological Processes for Borehole Drilling in Construction Using Vibration Impact (2015) Applied Mechanics and Materials, 725-726, pp. 220-228.

## **Chapter 3: Hydraulic Engineering Works**

Vakulenko, A.M., Bolshev, A.S Loads from Ice Ridge Keels – Analytical vs. Numerical (2015) Applied Mechanics and Materials, 725-726, pp. 229-234.

Agafonov, A., Ksenofontova, D., Shkhinek K. Coastal Ice Investigation on the Site of Further Bridge Construction - Sveagruva, Svalbard, Norway (2015) Applied Mechanics and Materials, 725-726, pp. 235-244.

Karelov, A., Shkhinek, K., Belyaev, N. Using of Ice for Constructing Islands in the Arctic Conditions (2015) Applied Mechanics and Materials, 725-726, pp. 245-250.

Efimova, V., Shkhinek, K., Belyaev, N. Problems Concerning Gravel Islands Constructing and Exploitation in the Arctic Conditions (2015) Applied Mechanics and Materials, 725-726, pp. 251-256.

Thien, L.B., Korovkin, V. Comprehensive Settlement of the Gravitational Drilling Platform on the Seismic Action (2015) Applied Mechanics and Materials, 725-726, pp. 257-262.

Gorbunova, K., Shkhinek, K. Engineering Properties of Sea Ice Ridges in the Barents Sea in 2012-2014 Years for Evaluation of Ice Loads on Offshore Structures (2015) Applied Mechanics and Materials, 725-726, pp. 263-269.

Bakanovichus, N., Vatin, N. Ice Regime for Basins and Pumped-Storage Facilities (2015) Applied Mechanics and Materials, 725-726, pp. 270-284.

Arefiev, N., Badenko, N., Ivanov, T., Kotlyar, S. Nikonova, O., Oleshko, V. Hydropower Potential Estimations and Small Hydropower Plants Siting: Analysis of World Experience (2015) Applied Mechanics and Materials, 725-726, pp. 285-292.

Sidorenko, G.I., Alimirzoev, A.S. Multicriterion Optimization of Power Sites Location on the Watercourse (2015) Applied Mechanics and Materials, 725-726, pp. 293-298.

Sharova, V., Kantarzi I., Giang, T.L. Impact Wave on Port Mole in during Construction (2015) Applied Mechanics and Materials, 725-726, pp. 299-305.

Belyaev, N.D., Lebedev, V.V., Mishina, A.V., Nudner, I.S., Semenov, K.K., Schemelinin, D.I. Experimental Study of Tsunami-Type Waves Impact on Soil near Foundation of Offshore Gravitational-Type Platforms (2015) Applied Mechanics and Materials, 725-726, pp. 306-316.

Le-Zakharov, S., Tseitlin, B. The Influence of Tectonic Faults on a Stress-Strain State of a Large Concrete Dam (2015) Applied Mechanics and Materials, 725-726, pp. 317-324.

Kotlov, O., Kondratenko, P., Sokolova, O. Geotechnical Researches for Proving the Design Decisions for Reconstruction of the Dam on the Creek Pevek (2015) Applied Mechanics and Materials, 725-726, pp. 325-332.

Kuptsov, N. Characteristics of Bulk Carriers with Respect to the Developing Export Coal Terminals on the Far East of Russia (2015) Applied Mechanics and Materials, 725-726, pp. 333-341.

Bulatov, G., Vatin, N., Nemova, D., Ibraeva, Y., Tarasevskii, P. Ensuring the Reliability of Earth Dams in Complex Hydrogeological Conditions (2015) Applied Mechanics and Materials, 725-726, pp. 342-348.

Zafirovski, Z., Vatin, N. Empirical-Statical-Dynamical (ESD) Methodology for Extrapolation of Rock Mass Properties for Construction of Tunnels (2015) Applied Mechanics and Materials, 725-726, pp. 349-354.

Terleev, V., Badenko, V., Guseva, I., Mirschel, W. Enhanced Mualem-Van Genuchten Approach for Estimating Relative Soil Hydraulic Conductivity (2015) Applied Mechanics and Materials, 725-726, pp. 355-360.

Zakharov, Y., Zimin, A., Nudner, I., Ragulin, V. Two-Component Incompressible Fluid Model for Simulating the Cohesive Soil Erosion (2015) Applied Mechanics and Materials, 725-726, pp. 361-370.

#### **Chapter 4: Building Materials and Products**

Stamatovic, B., Korsun, A. Local Data Flow Principles in Porosity of Materials (2015) Applied Mechanics and Materials, 725-726, pp. 371-376.

Pustovgar, A., Medvedev, V. Influence of Chemical Additives on Radiation Stability of Concrete - Theoretical Basis and Evaluation Method (2015) Applied Mechanics and Materials, 725-726, pp. 377-382.

Baidzhanov, D., Nuguzhinov, Z., Fedorchenko, V., Divak, L. Heat Insulation Materials Based on Cenospheres (2015) Applied Mechanics and Materials, 725-726, pp. 383-390.

Makarevich, O., Smirnova, O. Improving the Durability of Protective Materials Based on Inorganic Binders when Exposed to Short-Wave Radiation (2015) Applied Mechanics and Materials, 725-726, pp. 391-395.

Kostić, R., Pukhkal, V., Vatin, N., Murgul, V. Application of Styrofoam in the Elements of Building Constructions (2015) Applied Mechanics and Materials, 725-726, pp. 396-402.
